Weather-Proof Materials:
The high-density polyethylene (HDPE) used in this collection is made to withstand any type of weather condition. From rain or shine, to snow, salty water and ice - the high durability of the HDPE ensures that your new patio furniture will not crack or splinter outdoors.
Eco-Friendly Materials:
This collection was made from 90% post-consumer materials that came from recycled plastic bottles.
UV-Protected Finishes:
The color in your new patio furniture runs through the entire material. This means low maintenance and no need for paint touch-ups if it is scratched. The UV-inhibiting pigment system also reduces fading over the years, ensuring that your new patio furniture stays brilliantly colored for years.
