Short Description

The Aerie Footstool is a part of our Aerie collection that takes the concept of the beanbag, and turns it into a piece of luxury that is sure to turn some heads. Pairs perfectly with the Aerie chair.

Description

The outer shell of the Aerie Footstool is a smooth, hand-woven sun and weather resistant material (more specifically, polypropylene material with a polyurethane coated base). The interior is filled with weather resistant bags with small beads filling the inside of each bag. The bags inside of the outer shell have zippers which allow for the removal or addition of more beads to adjust the rigidness of the footstool. This footstool also gets an eco-friendly mark of approval with it's use of recycled polypropylene. The cream, black, and gray stripes that surround the Aerie give it a cool/neutral feel that is perfect for resting your feet poolside with your friends or loved ones.

Dimensions

- Footstool: 31"W x 18"D x 16"H (9 lbs.)

Features

- Choose from Ocean Spray or Slate Stripe finishes
- Weather and sun resistant polypropylene fabric.
- "Bean-bag" like structured comfort.
- Zipper access to the polystyrene beads allow for customizable comfort.
- Recycled polypropylene used during manufacturing.
- Limited warranty which covers any manufacturing defects and quality issues.

Product Care Information To clean, a simple wash with cold water from a hose and wiping with a small rag will do just fine. If there is a stubborn stain that will not rinse out with water, a uncolored rag or brush with some dishwashing soap will take care of the rest. All of our Aerie products are not machine washable. Take care when placing these near sources of heat. Because this product is lightweight, we recommend storing the

product when not in use.
