

ELEVATE SLING

ALUMINUM

 Frames are designed with added weight to withstand wind and stay in place.

The Elevate sling collection shows that elegance and strength can go hand in hand. Elevate features defined lines with added weight for resistance against strong winds. Created from custom, solid aluminum, these pieces offer tremendous resistance to wind, salt, sun, and snow. All these features combine to make Elevate sling ideal for hospitality, workplace, rooftop, and balcony environments.
