

WHY YOU WILL LOVE OUR CUSHIONLESS AIR

AIR FURNITURE HIGHLIGHTS *Featured on Elements, Grace, Infiniti, and Revive air collections.*

The air seating series features the appearance and comfort of a deep seating lounge chair, in a fill-free, cushionless construction. Luxurious Sensation sling fabric is the ultimate in low-maintenance comfort and also features exceptional shape retention and surface memory. These all-aluminum frames provide strength and durability for all climates and is ideal for both residential and commercial applications. All Air double layer slings are protected with an industry-leading five-year residential/two-year commercial warranty.

SEAT CONSTRUCTION

The seating surface is constructed with a double layer of material (mirroring Homecrest's double layer sling) for strength and durability. Sensation fabrics provide the comfort, stretch, and recovery that a traditional cushion offers.

VENTED INNER LINING

On Elements, Grace, and Revive units, a vented inner lining allows moisture to pass straight through the seat surface and prevents sunlight from exposing the internal structure.

REPLACEABLE & FULLY-UPHOLSTERED LOOK

The upholstery on the Elements, Grace, and Revive units is completed by lacing the side panels to the frame and utilizes a Velcro closure to finish out the bottom. This technique is what gives the air collections a fully-upholstered look. A stretched basket replacement, or a sling replacement for Infiniti, is available if an updated look is desired or as a replacement after years of use.

INFINITI CONSTRUCTION

The Infiniti collection's double layer Sensation sling is fully wrapped around the frame, providing a uniquely tailored profile. The Infiniti chat chair can stand beautifully alone, or can easily be configured into loveseats, sofas, and sectionals using a discreet connector bracket. The fill-free construction means there is virtually no dry time. Like all of our double layer slings, Infiniti's sling is easily field replaceable.
