

WHY YOU WILL LOVE OUR HOT FIRE TABLES

The centerpiece to any nighttime outdoor gathering, a fire pit or table offers a sense of warmth and belonging. Homecrest fire tables come equipped with a powerful jet-flame fire burner system. These efficient burners offer a bigger, brighter flame with less fuel! Available in either Liquid Propane or Natural Gas, the evenings will just keep rolling.

Visit www.homecrest.com/collections/fire-tables to view all of our available fire table options.

dc Need help visualizing these options? Visit the Interactive Design Center at design.homecrest.com to create the look that fits your style!

HOMECREST[™]
OUTDOOR LIVING

WHY YOU WILL LOVE OUR HOT FIRE TABLES

Available in coffee, chat, dining, and balcony heights, Homecrest fire tables offer a powerful burner (up to 65,000 BTUs on fire tables with the Aurora or Valero base and 30,000 BTUs on fire tables with the Nova base) and come standard with your choice of fire jewelry, as well as a secure key, black 3/4" aluminum fire burner riser, and match-light ignition.

OUTDOOR FIRE TABLE HIGHLIGHTS

ACCESSORIES

We offer several reflective fire jewelry options, lazy susans, painted aluminum burner covers, and fire table cover options. Homecrest highly recommends the use of a glass guard when operating fire tables in windy conditions. Prolonged exposure to flames that are blown flat to the table surface may cause slight discoloration of the cosmetic surface.

EASY PROPANE ACCESS

Each fire table base allows for a 20 lb vertical propane tank (utilized with all chat, dining, and balcony round, chat rectangular, and chat square fire table bases) or horizontal propane tank (utilized with coffee square, round, and rectangular fire table bases). These tanks are hidden, yet are easily stored and accessed by being mounted on the door or using a pull-out drawer. Our fire tables can either be fueled by propane or converted to natural gas.

EXTERNAL KEY

Each fire table comes equipped with a removable key valve, providing easy flame control when in operation and the added safety of a removable key to prevent tampering when not in use.

FIRE BURNER CONSTRUCTION

All of our fire burner inserts come standard with an elevated 3/4" black aluminum riser to prevent heat transfer to the top. All of our fire burner inserts are stainless steel and are powder-coated black to avoid discoloration of the burner surface. Our 20" round-shaped fire burner inserts provide additional safety, concentrating the flames towards the center of the burner.

BUILDING A FIRE TABLE

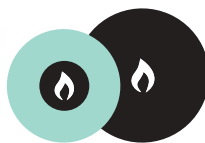

Homecrest has made selecting top colors and frame finishes for your fire table easy! Simply follow the steps below to create a look that suits you. To help you visualize and customize your fire table, use our Interactive Design Center at design.homecrest.com.

1. PICK A FIRE TABLE COLLECTION
(ex. Timber | Valero Base)

2. SELECT A FIRE TABLE HEIGHT
(ex. Chat)

3. CHOOSE A FIRE TABLE TOP SIZE AND SHAPE
(ex. 42" Round)

4. PICK A FIRE TABLE BASE COLOR
(ex. Carbon)

5. SELECT A FIRE TABLE TOP COLOR
(ex. Char)

6. CHOOSE YOUR REFLECTIVE FIRE JEWELRY AND OPTIONAL ACCESSORIES
(ex. Platinum)

Note: Duo-Tone option is available for Mode fire pits (select a base color and a top color).

Note: Duo-Tone option is available for Valero bases only (select a frame color and a side panel color).

Note: Your choice of one or two colors. Nova base fire pits only allow one color selection.
