

WHY YOU WILL LOVE OUR HEIGHT OPTIONS

DINING, CAFÉ, BALCONY, & BAR HEIGHTS

Homecrest offers a variety of seating heights for several types of market applications ranging from lounging to dining, café, balcony, and bar. **Note:** It is important to note the desired seating height when selecting tables or pairing with existing tables or seating.

DINING SEATING & TABLE COLLECTIONS

Dining seating pieces have an average seat height of 17.5" and are commonly used in casual outdoor seating areas. Most dining collections have both stationary and motion pieces. Be sure to select dining heights for both the table, which has a 27.5" average height, and the seating collection to ensure proper fit.

CAFÉ SEATING & TABLE COLLECTIONS

Café seating pieces have an average seat height of 19" and are commonly used in restaurants, bars, and other active seating venues. Most café collections are stackable and available with and without arms. Be sure to select café heights for both the table, which has a 30" average height, and the seating collection to ensure proper fit.

BALCONY SEATING & TABLE COLLECTIONS

Stationary balcony seating pieces have an average seat height of 24" and are commonly referred to as counter height. Balcony swivel rockers have an average seat height of 21". Most balcony collections are available in sling and metal, with and without arms. Be sure to select balcony heights for both the table, which has a 34" average height, and the seating collection to ensure proper fit.

BAR SEATING & TABLE COLLECTIONS

Bar seating pieces have an average seat height of 29" and are commonly used in restaurants, bars, and other active seating venues. Most bar collections are available with and without arms. Be sure to select bar heights for both the table, which has a 40" average height, and the seating collection to ensure proper fit.
