

WHY YOU WILL LOVE OUR OUTDOOR TABLES

Homecrest works in a variety of table surface categories. Our Natural Series encompasses several surfaces that look like natural stone, concrete, and reclaimed wood. Homecrest's Eden collection utilizes both aluminum and HDPE. Our Metal collections include extruded and formed aluminum.

OUTDOOR TABLE HIGHLIGHTS

NATURAL SERIES CONSTRUCTION

Our Natural Series surfaces employ the best practices from the countertop and marine industries, producing individually handcrafted surfaces made to withstand the outdoor elements. These durable and heavy surfaces feature proven marine-grade gel coats, tough resin cores, and an automotive-grade "Nano-Coat" clear coating technology.

WHAT IS "NANO-COAT?"

Nano-Coat is a super hard surface that is UV-protected, has a chemical-resistant paint protection, and a corrosion inhibitor. The surface is then resistant to scratches, mars, and abrasions. It contains anti-graffiti and anti-stick properties, which lends itself to repel water and dirt, making it easy to clean.

HDPE

Our HDPE collections offer a long-lasting lumber plank look. The planks are manufactured from high quality recycled HDPE (High Density Polyethylene) to create durable and heavy recycled plastic lumber. HDPE is an environmentally-friendly, low-maintenance product, and features a textured surface that doesn't rot or splinter, doesn't require paint or stain, and is resistant to termites, fungus, salt, and oils.

METAL & GLASS TABLE CONSTRUCTION

Our aluminum and steel products go through an extensive process that cleans the raw material from any foreign debris and prepares the surface for quality paint adhesion. A baked-on polyester powder-coat finish is applied, and provides a durable finish for many seasons.

Our Aquatex glass tops have a translucent ripple pattern. The tempered glass is 3/16" thick. Tempered glass is about four times stronger than regular glass, and offers enhanced safety.

BUILDING A TABLE

Homecrest has made selecting top colors and frame finishes for your table easy! Simply follow the steps below.

1.

PICK A TABLE COLLECTION
(ex. Timber)

2.

SELECT A TABLE HEIGHT
(ex. Dining)

3.

CHOOSE A TABLE TOP SIZE AND SHAPE
(ex. 48" Square)

4.

PICK A TABLE BASE COLOR
(ex. Carbon)

5.

SELECT A TABLE TOP COLOR
(ex. Char)

Note: Duo-Tone option is available for Mode (select a base color and a top color) and Dockside (select a frame color and inner slats color).

NEED TO CHANGE YOUR DINING TABLE TO A CAFÉ HEIGHT?

The Natural Series 37XX dining table base (27.5" in height) is designed to easily convert to a café table base (29.25" in height) by adding a Lift Kit (KIT175). Simply attach the hardware to the base frame for an additional 1.75" in height. The Lift Kit can be removed to convert the café table base back to a dining table base. Lift Kits are available in all finishes.
