# WHAT ARE SENSATION FABRICS?

Homecrest's Sensation sling fabrics are constructed using a specialized UV-resistant elastomeric yarn that is woven together with typical PVC sling fibers, creating a material that has amazing stretch characteristics for comfort, and outstanding memory for fabric longevity.

## WHAT MAKES SENSATION SPECIAL?

**Comfort.** Sensation fabrics stretch and move according to the frame of the user, providing a truly custom sit for every individual; and the strength of the unique fibers provide excellent support to people of all shapes and sizes.

**Memory.** Sensation's unique stretch characteristics cause it to return to a smooth, clean profile once the furniture is vacated...even after years of use.

**Strength and Longevity.** All of Homecrest's standard sling products go through 50,000 cycles of drop-testing, which in itself is remarkable; but Sensation slings go well over 90,000 cycles without damage.

**Frame Protection.** Sensation fabrics promote the structural integrity of the metal frames used in chair construction, as the elastomeric characteristics absorb much of the shock that would normally be borne by the supporting frame.

**UV-Resistance.** Sensation slings are extremely fade-resistant, and look showroom-ready for years after purchase.

**Low-Maintenance.** With Sensation fabrics, there is no such thing as 'dry time'—whether damp from poolside use or inclement weather, towel it off and it's ready to go. Cleaning is a breeze—often a gentle hosing down is all that's needed to keep it looking fresh.

POPPY

STRATUS

ZINC II

## WHAT COLLECTIONS USE SENSATION SLINGS?

All Homecrest sling (dining, bar, cushionless deep seating, and chaise) collections are available with Homecrest's proprietary double layer Sensation sling. And like all Homecrest sling furniture, Sensation slings are warranted for 5 years in residential use, two years commercial, and are field-replaceable.

For more than sixty years, Homecrest has built its reputation on quality, innovation, and comfort. As pioneers in the elastomeric fabric category, we have more than 15 years of experience building Sensation sling furniture; and to this day, there is nothing that comes close to the maintenance-free comfort, memory, colorfastness, and longevity of a Homecrest Sensation sling chair.
