Care and Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes, or power washers, which could damage the finish. Take extra care when placing your furniture in humid or coastal settings; accumulation of salts and other debris can cause damage to your frame.

Eucalyptus Wood: Clean wood frames using mild soapy water and a soft brush or pad to clean away accumulated dirt. Rinse with clean water and allow to dry naturally. When left untreated, eucalyptus will patina to a silvery grey which does not impact the integrity of the wood.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
