Description

With a delightful stone sphere as it's centerpiece, the Marinus Floor Fountain is sure to please all with it's tranquil water features. Water gently gurgles from the top of the sphere before cascading down the sides and into the lower basin. This beautiful fountain is sure to be the focal point of any outdoor setting.

The fountain is made of the highest grade fiber reinforced concrete (GFRC), which not only reduces weight but is also much more durable than standard cast stone. The artists behind the making of this fountain have simulated the natural texture of the stone to perfection. Installation is very simple and one can be sure to enjoy the beauty and serenity of this fountain with little effort.
