Residential Electric Heaters

Infratech's infrared heaters boast wide, polished reflectors that provide comfortable and uniform heat coverage. For residential use, the W1512SS model is made of commercial grade stainless steel. The W-Series fixtures are optimal for the most basic installations and are backed by an industry-leading warranty package.

Our indoor/outdoor heater selection is vast and we offer a variety of sizes to choose from. The single element heaters are low profile and have a charming, streamlined look due to their low clearance requirements.

Wall Mounted Heaters

This particular heater has been designed for low clearance requirements, so it offers a pleasing, streamlined look that is perfect for any setting. Our Infratech heaters are versatile and may be flush mounted into a ceiling using our optional flush mount frame, or may be mounted to a wall, ceiling or pole mounted.

Heaters Built To Last

Infratech elements are rated for near 5,000 hours of continuous use. In many cases, you will find yourself enjoying your heater for years before a replacement would be necessary. Always refer to the W-Series manual for specific instructions, and be sure to disconnect the power to your heater before attempting to change an element.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
