- UL listed
- Outdoor or Indoor use
- Quartz Element
- Approximate 5,000 hours of use on quartz element
- 8' to 12' Mounting height
- 0 to 60° Mounting Angle
- Approximate 9' x 10' Heat Coverage
- Minimal Maintenance Costs
- Custom Powder Coating available in White, Almond, Beige, Bronze, Gray, Copper, and Black
- Flush Mount Kit Available: #18-2300
- 3 Year Warranty
- Made in the USA

Infrared Patio Heaters

Similar to being heated by the sun, infrared heaters heat surrounding objects and people, transferring the heat to surfaces and skin. Objects and people absorb the heat given off by the infrared heater, which in turn increases the warmth in the room. Infrared heaters heat those near the actual heaters, without interfering with the surrounding oxygen. Our 39" 5000 Watt Infratech Dual Heater is a dual element fixture that will generate more concentrated heat for your outdoor area than most alternatives. This specific heater is perfect when installed in settings that have higher height requirements or when more heat is desired. Furthermore, this patio heater integrates a specially designed electric quartz heating element that produces safe infrared radiant energy. The radiant energy heats solid objects and is not wasted heating the surrounding air. This

means a more efficient heating system for you and your guests, year-round.

Infratech heaters boast a variety of benefits:

- Low Maintenance
- Suitable for multiple installations - ceiling, wall or flush mount

Better than Traditional Outdoor Fireplaces

Traditional fireplaces are less than 50% efficient when producing heat. Fireplaces also require ventilation, have a larger profile, provide limited heat control, and require more maintenance. Infratech heaters convert over 90% of their input energy directly into radiant heat, emit zero greenhouse gasses, and are extremely easy to manage.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
