Short Description

Primitive in its looks, our Aristotle Stone Fountain brings relaxation and sophisticated calmness into a room with its mere presence.

Description

Primitive in its looks, our Aristotle Stone Fountain brings relaxation and sophisticated calmness into a room with its mere presence. The geometric beauty of this fountain's shape brings in a geological wonder that looks like a precisely chiseled volcanic rock, ready to explode a shower of relaxation. Water erupts from its round center with a collection of pebbles for a serene, relaxing feel. The Aristotle creates the perfect spa-like ambiance into a garden or home.
