Care & Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes, or power washers, which could damage the finish. Take extra care when placing your furniture in humid or coastal settings; accumulation of salts and other debris can cause damage to your frame.

Bamboo: Bamboo is a strong, natural material, but will become porous if left to dry out. Bamboo displays a golden brown color that may be beautifully maintained over time or allowed to gracefully age into a subtle silver patina. To keep the original golden finish, treat your product with a thin layer of oil suitable for outdoor furniture 3-4 times a year. To prevent the bamboo from deteriorating, please do not use a cover for the table. It is important to allow your bamboo product breath.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
