Short Description

Breeze 42" Dining Table 3042RD by Homecrest

Description

Add the Breeze 42" Dining Table (3042RD) by Homecrest to your patio collection to give your outdoor space additional luxuriousness and durability. This table's slatted design will serve as an excellent substitute for wood in high end, natural settings. Play up its boardwalk aesthetic for a beachside look, or pair it with more rustic surroundings to create a luxury ski resort feel! Its lightweight, corrosion resistant construction makes it ideal for commercial or residential use in any climate. Shield yourself and your guests from the elements by utilizing the built-in umbrella hole. Customize your ideal patio table by choosing from a variety of sleek, robust finishes. If you would like to be able to convert your dining table into a cafe height table, don't forget to add a Lift Kit (KIT175) before checkout!

- Finish has 5 year warranty against peeling, flaking or blistering

Care & Maintenance

Enjoy your Homecrest furniture for years to come by keeping it in good shape! Simply hose off or wipe down your table to keep it clean, but avoid power washing. You can further protect your aluminum frame by waxing it at least once a year. If you plan on using your table near salt water or an indoor pool, wipe down and wax regularly to prevent paint blistering. Make sure to store it right-side up during cold winter weather to prevent damage caused by ice.

Durable Aluminum Frame

Homecrest's products go through an extensive process that cleans the raw material from any debris and prepares the surface for quality paint adhesion. A baked-on polyester powder-coat finish is applied, which will provide a durable finish season after season. All Homecrest powder-coat finishes are backed by an industry-leading warranty.

Differences in Dining Heights

Homecrest offers a variety of seating and table heights for several types of market applications ranging from lounging to dining, cafe, balcony and bar. It is important to note the desired seating height when selecting tables or pairing with existing tables or seating.

Dining Seating & Table Collections

Dining seating pieces have an average seat height of 17.5" and are commonly used in casual outdoor seating areas. Most dining collections have both stationary and motion pieces. Be sure to select dining heights for both the table, which has a 27.5" average height, and the seating collection to ensure proper fit.

About the Manufacturer

Homecrest combines a rich history of quality and classic design with today's demand for affordable luxury and versatile living. Homecrest's focus has broadened to encompass the increasing demands of sophisticated, style-driven consumers seeking to complement their homes' interior designs and create a seamless flow between indoors and out. Homecrest is poised to build its future on consumer and contract needs, innovative new products and global opportunities.
