Care & Maintenance

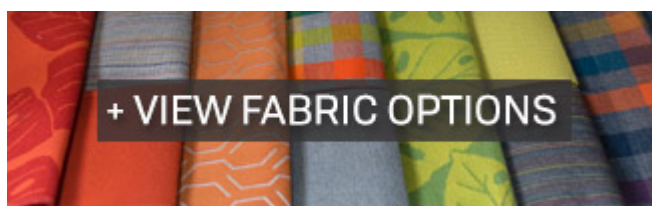

Enjoy your Homecrest furniture for years to come by keeping it in good shape! Simply hose off or wipe down your bench to keep it clean, but avoid power washing. You can further protect your aluminum frame by waxing it at least once a year. If you plan on using your bench near salt water or an indoor pool, wipe down and wax regularly to prevent paint blistering. Make sure to store it right-side up during cold winter weather to prevent damage caused by ice.

Durable Aluminum Frame

Homecrest's products go through an extensive process that cleans the raw material from any debris and prepares the surface for quality paint adhesion. A baked-on polyester powder-coat finish is applied, which will provide a durable finish season after season. All Homecrest powder-coat finishes are backed by an industry-leading warranty.

Differences in Dining Heights

Homecrest offers a variety of seating and table heights for several types of market applications ranging from lounging to dining, cafe, balcony and bar. It is important to note the desired seating height when selecting tables or pairing with existing tables or seating.

About the Manufacturer

Homecrest combines a rich history of quality and classic design with today's demand for affordable luxury
