Short Description

Emory Cushion Low Back Loveseat 2M42A by Homecrest

Description

The Emory Cushion Low Back Loveseat (2M42A) by Homecrest combines the strength and durability of aluminum with the comfort of a luxurious, all-weather cushion to create a chair that's easy to love. The Emory collection blends artisanal style with rugged outdoor construction, making its chairs the ideal choice for

commercial or residential spaces that could benefit from a touch of comfort. This chair's old-world scrolled solid aluminum detailing and vintage Tuscan design elements will complement fireside lounges, rustic hotel resorts and fine dining establishments well. With Homecrest's Luxe Outdoor™ cushions, you can enjoy luxurious back support for years to come. Create your ideal patio setup by choosing from some of the highest quality cushions, fabrics and frame finishes in the industry. If you can't find the fabric you're looking for, give us a call at 1-888-947-4449 for more options!

- Aluminum Frame has 15 year Residential / 5 year Commercial warranty against structural failures
- Finish has 5 year warranty against peeling, flaking or blistering
- Outdura fabrics have a 5 year fade warranty

Care & Maintenance

Enjoy your Homecrest furniture for years to come by keeping it in good shape! Simply spot treat stains on your chair with mild soap and water, rinse, and allow it to air dry. Tip: Placing a cushion on its side will help the water to drain faster! Never use a commercial washer or dryer to clean your cushions.

You can protect your aluminum frame by waxing it at least once a year. If you plan on using your chair near salt water or an indoor pool, wipe down and wax regularly to prevent paint blistering. Make sure to store it right-side up during cold winter weather to prevent damage caused by ice.

Durable Aluminum Frame

Homecrest's products go through an extensive process that cleans the raw material from any debris and prepares the surface for quality paint adhesion. A baked-on polyester powder-coat finish is applied, which will provide a durable finish season after season. All Homecrest powder-coat finishes are backed by an industry-leading warranty.

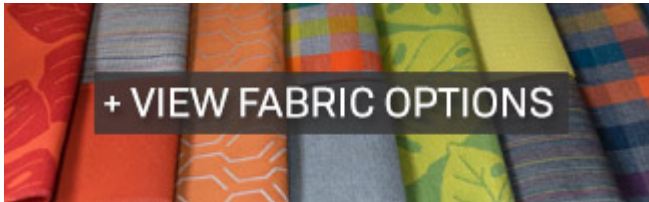

Luxe Outdoor™ Cushions

Luxe Outdoor™ seat cushions are constructed for durability and longevity. The foam core is wrapped in moisture-resistant ticking that is glued, not sewn, to prevent moisture penetration. It is then wrapped with a polyester fiber layer to provide a soft sit. Back cushions are constructed using three layers of specific

polyester fiber densities to provide stability and comfort. Polyester fiber fill does not hold moisture and does not need to be wrapped in a moisture-resistant material. Seat cushions use a 4" inner core of High Resilient foam wrapped in moisture-resistant ticking. The inner core is then wrapped in moisture-resistant polyester fiber. This combination creates the comfort and durability of the Luxe Outdoor seat cushion.

Differences in Dining Heights

Homecrest offers a variety of seating and table heights for several types of market applications ranging from lounging to dining, cafe, balcony and bar. It is important to note the desired seating height when selecting tables or pairing with existing tables or seating.
