TABLE HEIGHT DIFFERENCES

Short Description

DISC Maddox 44" x 96" Cafe Table 284496 by Homecrest

Description

Add the Maddox 44" x 96" Cafe Table (284496) by Homecrest to your patio collection to give your outdoor space additional sophistication and durability. The Maddox collection's defined silhouette and teak inspired construction will make any outdoor space feel inviting. This table's high quality HDPE slats are modeled after wooden planks to create a more natural look, while its clean-lined aluminum frame strikes a modern look. Its lightweight, corrosion resistant construction makes it ideal for commercial or residential use in any climate. Customize your ideal patio table by choosing from a variety of sleek, robust frame finishes and several distinct table top colors.

Warranty

- Aluminum Frame has 15 year Residential / 5 year Commercial warranty against structural failures
- Finish has 5 year warranty against peeling, flaking or blistering
- HDPE surfaces have 15 year Residential / 5 year Commercial warranty against significant warpage and structural failures

Care & Maintenance

Enjoy your Homecrest furniture for years to come by keeping it in good shape! Simply hose off or wipe down your table to keep it clean, but avoid power washing. You can further protect your aluminum frame by waxing it at least once a year. If you plan on using your table near salt water or an indoor pool, wipe down and wax regularly to prevent paint blistering. Make sure to store it right-side up during cold winter weather to prevent damage caused by ice.

HDPE Lumber Planks

Homecrest's HDPE collections offer a long-lasting lumber plank look. The planks are manufactured from high quality recycled HDPE (High Density Polyethylene) to create durable and heavy recycled plastic lumber. HDPE is an environmentally-friendly, low-maintenance product, and features a textured surface that doesn't rot or splinter, doesn't require paint or stain, and is resistant to termites, fungus, salt and oils.

Durable Aluminum Frame

Homecrest's products go through an extensive process that cleans the raw material from any debris and prepares the surface for quality paint adhesion. A baked-on polyester powder-coat finish is applied, which will provide a durable finish season after season. All Homecrest powder-coat finishes are backed by an industry-leading warranty.

Differences in Dining Heights

Homecrest offers a variety of seating and table heights for several types of market applications ranging from lounging to dining, cafe, balcony and bar. It is important to note the desired seating height when selecting tables or pairing with existing tables or seating.

Cafe Seating & Table Collections

Cafe seating pieces have an average seat height of 19" and are commonly used in restaurants, bars and other active seating venues. Most cafe collections are stackable and available with and without arms. Be sure to select cafe heights for both the table, which has a 30" average height, and the seating collection to ensure proper fit.

About the Manufacturer

Homecrest combines a rich history of quality and classic design with today's demand for affordable luxury and versatile living. Homecrest's focus has broadened to encompass the increasing demands of sophisticated, style-driven consumers seeking to complement their homes' interior designs and create a seamless flow between indoors and out. Homecrest is poised to build its future on consumer and contract needs, innovative new products and global opportunities.
