- Cleans easily with soap, water, and a soft bristle brush
- UV protectant and color continuously throughout the HDPE material; requires no painting or waterproofing
- Made in Syracuse, Indiana
- Marine-grade quality hardware
- Ships fully assembled

About Revolution Fabric

Revolution was introduced to the furniture industry in March 2014. Revolution was the first PFC chemical free performance fabric to hit the marketplace and was the only one made entirely in the United States after much of the textile business went overseas in 2008. Revolution has become a go-to fabric in the interior design community, because it can be used in just about any type of project; whether it's a sectional for a multi-million dollar beach house or kitchen banquette cushions for a small family home. The cleanability and price point is perfect for clients designing on a budget.

How to Clean Revolution Fabric

- Small stains can be removed with a mixture of mild dish soap and water.
- For tougher stains, a mix one ounce of bleach with 30 ounces of water in a spray bottle. If possible, place a clean towel between the fabric and foam cushion to absorb any excess moisture. Set the nozzle to "fan" the spray pattern and wet out the entire side of the cover where the stain is. Then wipe the entire cover with a clean cloth to remove any excess moisture. Then spray the same area with clean water to rinse the bleach solution out of the fabric. Again wipe the entire cover with a clean cloth to remove any excess moisture. Allow the cover to air dry

20-Year Warranty

We believe in our product and stand behind its quality and durability. That's why genuine POLYWOOD lumber is backed by an exceptional 20-year warranty.

Weather Resistance

Our all-weather material is built to withstand all four seasons and a range of climates including hot sun, snowy winters, salt spray, and heavy winds.

Color-Stay Technology

UV inhibitors and stabilizers protect our lumber from harmful environmental degradation and, along with light stable pigments, run continuously throughout the material.

Low Maintenance

Genuine POLYWOOD lumber cleans easily with soap and water can be disinfected with a homemade bleach mixture and requires no painting, staining, or waterproofing.

Durability

Our furniture is built to last - rigorous testing ensures POLYWOOD won't splinter, crack, peel, or rot.

About the Manufacturer

Back in 1990, we were the first to create outdoor furniture from recycled plastic materials. "Made with genuine POLYWOOD lumber" is a brand promise. Our furniture is built to be enjoyed season after season . More importantly, our goal is to help create spaces where friends and family can gather, relax, and connect. POLYWOOD recycles an average of 400,000 milk jugs per day. Truckloads of recycled milk jugs are

transformed into genuine POLYWOOD lumber, which is then used to construct our furniture.
