Care & Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes, or power washers, which could damage the finish. Take extra care when placing your furniture in humid or coastal settings; accumulation of salts and other debris can cause damage to your frame.

Durawood: Durawood is virtually maintenance-free due to the fact that it has exceptional resistance to fading, moisture, insects, splintering, and other common outcomes from environmental stress that one observes with treated lumber or wood fiber composite products. It just needs occasional washing with soap and water to remove dirt and debris if desired. Do not leave empty glasses on Durawood surfaces under direct sunlight. Doing so may cause sun damage to the surface.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
