Care & Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes or power washers, which could damage the finish.

Outdoor Fabric: Cleaning your canopy on a regular basis will help prevent build-up of dirt, which can generate mildew. Simply spot treat stains with mild soap and water, rinse, and allow the fabric to air dry. Never use a commercial washer or dryer to clean your canopy.

Tilt & Storage: Avoid using the tilt function during windy weather and try not to force the ribs apart when opening; this could damage your umbrella. Don't forget to store it ahead of a storm!

Frankford Umbrellas have been tested successfully in extreme weather and winds up to 40-50 MPH, however, we strongly recommend closing your umbrella when not in use or when sustained winds exceed 25 mph.
