GO GREEN WITH BERLIN GARDENS

Your Berlin Gardens poly furniture offers more than just a great place to relax with friends and family. It also protects the environment. That's because our poly lumber is manufactured using 100% recycled content.

Here's a look into the recycling process:

1. Polyethylene plastic, commonly used in manufacturing detergent containers, is gathered to be recycled.
2. Recycled plastic is ground, melted and cooled to produce purified plastic pellets, which are tested to maintain the highest quality control standards.
3. Pellets are melted, extruded and shaped into precision-cut poly lumber.
