Short Description

Magnolia 16" Square Lantern 716 by American Fyre Designs

Description

Embrace the enchanting beauty of the Magnolia 16" Square Lantern (716) by American Fyre Designs, a masterpiece adorned with a brushed stainless steel tree pattern in its design. Crafted from glass fiber reinforced concrete (GFRC), this lantern exudes both durability and artistry. Choose from a delightful array of

color and texture finishes to effortlessly personalize your outdoor space. With the convenience of selecting between natural gas or propane as your preferred fuel option, the Magnolia Lantern becomes a captivating addition to your outdoor setting. Illuminate your surroundings with its mesmerizing glow, casting enchanting patterns and infusing your outdoor ambiance with a touch of elegance and sophistication.

Includes

- One (1) Magnolia 16" Square Lantern 716
- Recommended: 6 lbs. of Glass Media to be used in addition to the Base Layer Lava Granules (Sold Separately)

Dimensions

- 16"W x 16"D x 66"H (160 lbs.)

Features

- Handcrafted from innovative Glass Fiber Reinforced Concrete (GFRC) made in USA
- GFRC derives its strength from portion of alkali-resistant glass fiber and acrylic polymer blended into durable concrete to withstand the outdoor elements
- Stainless steel burner is durable and weather-resistant
- Adjustable flame height for comfortable dining
- Available in natural gas or liquid propane
- Can accommodate a 5 gal. Propane tank inside the unit (tank not included)
- Gas will shut-off automatically if the thermocouple does not sense the presence of flame, ensuring increased safety.

About Manual Flame Sensing Control System

Match-lit, thermocouple equipped control with flame sensing recognition and manual flame height adjustment. The BTU rating with Manual Flame Sensing Control System is 25,000(NG) or 23,000(LP).

About FyreStarter Bluetooth Control

Introducing the new ON/OFF-High/Low electronic system for American Fyre Designs fire features, controlled conveniently through your smartphone. Simply download the app, and you're good to go. Firetables with FyreStarter Bluetooth Control require 110V AC power, while Firebowls and Fire Pits require 120AC power (include A and C USB ports). The BTU rating with FyreStarter Bluetooth Control is 28,000(NG) or 27,000(LP).

Warranty

American Fyre Designs' warranty covers manufacturing defects; normal wear and tear is not included. With a little bit of care, your furniture will outlive the warranty for many years.

- Finish and Accessories: Exterior (GFRC) fire features and accessories are warranted for 3 years in a residential setting
- Components: Valves, burners, electrical components, and controls (excluding batteries) are warranted for 1 year in a residential setting

Care and Maintenance

Concrete Frame: Concrete is porous and absorbs oils, acids, and chemicals. Clean spills immediately by rinsing or washing gently by hand using clean water and a soft, nonabrasive cloth and allow to air dry. Avoid using harsh cleaners, oily or acidic substances, brushes, or power washers, which could damage the finish.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them

upside down, which can trap moisture.

About the Manufacturer
