## Short Description

Iron Saddle 60"x36" Rectangle Firetable 580 by American Fyre Designs

## Description

Elevate your outdoor gatherings to a new level of warmth and ambience with the Iron Saddle 60"x36" Rectangle Firetable (580) by American Fyre Designs. Crafted with meticulous care from durable glass reinforced concrete (GFRC), adorned with robust steel decor straps, this exquisite firetable creates an inviting haven for cherished moments. With options ranging from manual flame sensing control to cutting-edge Bluetooth control via your iPhone using Fyrestarter electronic ignition, and your choice of Natural Gas or Propane, this versatile masterpiece delivers both style and function. Whether you're seeking intimate conversations or lively gatherings, the Iron Saddle Firetable offers coffee table height and comes in a variety of seven finishes, seamlessly integrating into your backyard oasis.

Includes

- One (1) Iron Saddle 60"x36" Rectangle Firetable 580
- One (1) Bag of 10 lbs. or 5 lbs. Base Layer Lava Granules LF-10 or LF-5
- Recommended: 25 lbs. of Glass Media to be used in addition to the Base Layer Lava Granules (Sold Separately)

## Dimensions

- 60"W x 36"D x 17"H (370 lbs.)
- Linear Burner Length: 36"

## Features

- Handcrafted from innovative Glass Fiber Reinforced Concrete (GFRC) made in USA
- GFRC derives its strength from portion of alkali-resistant glass fiber and acrylic polymer blended into durable concrete to withstand the outdoor elements
- Stainless steel burner is durable and weather-resistant
- Adjustable flame height for comfortable dining
- Available in natural gas or liquid propane
- Cannot accommodate a propane tank inside the unit
- Gas will shut-off automatically if the thermocouple does not sense the presence of flame, ensuring increased safety

## About Manual Flame Sensing Control System

Match-lit, thermocouple equipped control with flame sensing recognition and manual flame height adjustment. The BTU rating with Manual Flame Sensing Control System is 65,000(NG) or 65,000(LP).

## About FyreStarter Bluetooth Control

Introducing the new ON/OFF-High/Low electronic system for American Fyre Designs fire features, controlled conveniently through your smartphone. Simply download the app, and you're good to go. Firetables with FyreStarter Bluetooth Control require 110V AC power, while Firebowls and Fire Pits require 120AC power (include A and C USB ports). The BTU rating with FyreStarter Bluetooth Control is 75,000(NG) or 75,000(LP).

## Warranty

American Fyre Designs' warranty covers manufacturing defects; normal wear and tear is not included. With a little bit of care, your furniture will outlive the warranty for many years.

- Finish and Accessories: Exterior (GFRC) fire features and accessories are warranted for 3 years in a residential setting
- Components: Values, burners, electrical components, and controls (excluding batteries) are warranted for 1 year in a residential setting

## Care and Maintenance

**Concrete Frame:** Concrete is porous and absorbs oils, acids, and chemicals. Clean spills immediately by rinsing or washing gently by hand using clean water and a soft, nonabrasive cloth and allow to air dry. Avoid using harsh cleaners, oily or acidic substances, brushes, or power washers, which could damage the finish.

**Covers & Storage:** When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.

## About the Manufacturer
