Top Grade Recyclable All Weather Wicker

Not all synthetic wicker is created equal. The wicker used to make this set is made of recyclable HDPE (high density polyethylene) so it is not only durable, it is eco-friendly as well. UV inhibitors are infused into the synthetic wicker at the time of production so it will not fade or crack in the sun like cheap outdoor wicker will. Plus each individual strand is lightly textured and features a subtle mix of color to create a natural look that

you and your guests will love.
Thick Gauge Aluminum Frames

Aluminum frames are not only lightweight for easy moving, but they are the most durable as well. Aluminum does not weaken or discolor when it oxidizes (rusts) like other metals do so your frames will not be affected by the weather no matter what conditions. Thick gauge frames are used to avoid bending or damage from use making this set truly worry free.
Sunbrella® Cushions Made in America

The cushions are made from Sunbrella® fabric that resists fading in the sun and are fitted with zippers so that the covers can be removed for cleaning. Sunbrella® is the #1 outdoor grade fabric in the industry and offers excellent durability. The cushion seats are made from quick dry polyurethane foam and wrapped in Dacron that wicks away moisture to eliminate mildew. The back rests are filled with fluffy polyester filling for durability and comfort. Only the seat and back cushions are included, throw pillows are an additional charge. Every Harmonia Living cushion is sewn with durable Tenara® thread, which is unaffected by weather and normal wear, making these cushions outlast the competition.
