About POLYWOOD

Back in 1990, we were the first to create outdoor furniture from recycled plastic materials. " Made with genuine POLYWOOD lumber" is a brand promise. Our furniture is built to be enjoyed season after season . More importantly, our goal is to help create spaces where friends and family can gather, relax, and connect. POLYWOOD recycles an average of 400,000 milk jugs per day. Truckloads of recycled milk jugs are transformed into genuine POLYWOOD lumber, which is then used to construct our furniture.
