Disclaimer: Recommended for use only under covered patios, or if placed in direct sun, must be covered with protective cover to prevent fading. Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture. If placed in direct sun, must be covered with a protective cover to prevent fading when not in use. In areas with harsh winter climates, cover the frames to prevent damage.
