## Care & Maintenance

**Frame:** Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes or power washers, which could damage the finish.

**Wicker:** Simply hose off, or use a solution of mild dish soap (just a drop or two) and water with a soft cloth. Do not use harsh chemicals to clean HDPE wicker.

## Covers & Storage:

To prolong the life of your furniture, we recommend using a protective cover. In areas with harsh winter climate, store the cushions inside of a garage or shed, and cover the frames to prevent damage.

For every piece of furniture we produce, Trees for the Future plants one tree. Trees for the Future operates in degraded and deforested regions, tackling climate change and world hunger. Farmers are trained to sustainably revitalize their land. This provides sources of food they otherwise would not have access to. Through TREES Forest Garden Approach, farmers plant thousands of trees that provide protection and nutrition. Their gardens and soil are restored through nitrogen fixation.
