Care & Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes, or power washers, which could damage the finish. Take extra care when placing your furniture in humid or coastal settings; accumulation of salts and other debris can cause damage to your frame.

Thermal Ash: HOUE's thermal ash wood is thermally treated to prevent splitting, cracking, and rot. Over time, thermal ash develops a pleasing silvery gray patina, which is cosmetic and not an indication of dryness. To keep the original golden brown finish, apply a very thin layer of Thermal Ash oil to your furniture 3-4 times a year, depending on exposure.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
