- Frame finishes are warranted to be free of manufacturing defects for 7 years residential / 5 years commercial from the date of purchase.

Care and Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes or power washers, which could damage the finish. Should the product get scratched or damaged, the metal will begin to rust. Use Rustoleum spray paint to touch up and prevent rust from spreading.

Covers & Storage: To prolong the life of your furniture, we recommend using a protective cover. In areas with harsh winter climates, store the cushions inside of a garage or shed, and cover the frames to prevent damage.

What is Welt?

Welt goes by several names. It can be called a welt trim, welt cord, welt piping, or simply welting. It is the decorative trim around the edges of a cushion to give the cushions a more finished look. A thin piece of cord or piping is wrapped in fabric and sewn to the seams of a cushion. It serves two primary functions. The first is functional, helping to strengthen and protect the seams of the cushion. The second is visual. Welt gives cushions a more finished look and emphasizes the shape of the cushion. Welt that matches the color of the cushion fabric is called a "matching" or "self" welt.
