Care and Maintenance

Sling: In order to protect from getting stains and keep its appearance, wipe down with a damp cloth using a soap and water mixture every few weeks. To remove any mold, rinse the furniture with water and gently scrub with a brush. **Covers & Storage:** When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.

About the Manufacturer
