Short Description

Great for small spaces like patios or balconies, the Picnic Basket Fire Pit offers a pack of warmth to a small space

Description

Great for small spaces like patios or balconies, the Picnic Basket Fire Pit offers a pack of warmth to a small space. Its basket weave design features cut outs to allow full view of the fire, while the deep bowl allows more wood to be used when making a fire. Made from a durable powder coated steel, this fire pit features a unique antique Bronze finish with black powder-coated iron legs. A dome shaped spark screen protects those around it from sparks flying out, but easily lifts off to allow more wood to be added inside. A log grade holds the logs up to a proper distance to give proper air flow to the fire for a consistently even flame. With everything you need to make a hearth for your small outdoor space, the Picnic Basket Fire Pit is a perfect addition to any apartment or home.

Dimensions

- Fire Pit: 24"L x 33"W x 24"H

Features

- Made from durable steel
- Spark guard screen protects from flying sparks
- Includes fire pit cover, log grate, and screen/wood tool
