Short Description

Tulle Cushioned Dining Chair TLCH by Oxford Garden

Description

Inspired by the delicate and graceful nature of petals, Tulle Cushioned Dining Chair (TLCH) by Oxford Garden will bring a lifetime of beauty and bliss to your outdoor space. The round, petal-like frame and soft, handwoven wicker create the perfect seat that is made for long conversations among friends. Twisted strands of high-density polyethylene (HDPE) wicker are tightly woven over the frame to create a sturdy and comfortable seat that is made to last across the seasons. The beautiful dense grain and golden tone of teak bring all-natural accents to the Tulle collection while its high oil content protects against climate and environmental changes, including rot and infestation. When left untreated, the teak will patina to a silvery grey which does not impact the integrity of the teak wood. Quick-drying outdoor cushions provide lasting comfort and complimentary Sunbrella Bliss Linen fabric is made to endure in any outdoor setting, rain or shine.

Care & Maintenance

Teak Frame Care: Long-term, teak furniture develops a pleasing silvery gray patina, which is cosmetic and not an indication of dryness. Its natural oils help keep this hardwood strong and durable in a variety of environments, so there's very little maintenance. Because teak is very weather-resistant, it doesn't need to be stored during the winter or covered with protective tarps. However, covering teak furniture will protect the surface from elements such as hail, wind, and snow, which can cause cosmetic damage. To keep the original golden honey finish, apply a very thin layer of Linseed or Teak oil to your furniture 1-2 times a year, depending on exposure. Cleaning with teak cleaner is recommended every 2-3 years, along with the oil application.

HDPE Wicker: To clean HDPE wicker, rinse with cool water, and use a cloth with mild dish soap to wipe down and remove dust and residue. Use cool water to wipe away any soapy residue. Dry with a soft cloth.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
