All Weather, Environmentally Friendly Wicker :

Synthetic wicker is made in different levels of quality, but we only offer the best. This wicker is made from high density polyethylene (HDPE), which is specially manufactured for all weather resistance. It resists UV damage, chipping, fading, and deformation due to solar heat. Each strand is solid through and through with color, which means you never have to worry about cheap paint flaking off. In addition, it is also 100% recyclable and does not degrade into environmentally harmful compounds. HDPE wicker is not only superior in terms of quality, but also in terms of environmental responsibility.
