Care and Maintenance

Frame: Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes, or power washers, which could damage the finish. Take extra care when placing your furniture in humid or coastal settings; accumulation of salts and other debris can cause damage to your frame.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.

About the Manufacturer

Founded over 30 years ago, Ebel has built a reputation for providing quality outdoor products at unparalleled value. From the first sketch to the final production, Ebel offers sophisticated pieces made with uncompromising craftsmanship. Crafted with durable materials such as sleek, powder-coated aluminum and timeless High-Density Polyethylene (HDPE) wicker, Ebel allows you to enjoy your outdoor patio furniture over many seasons. Comfort and style take center stage with premium quality cushions that look good and sit even better. All of our cushions are made-to-order in the USA in your choice of fabrics. With 99 stocked fabrics and hundreds more available on special orders, creating your perfect look has never been easier. We offer performance fabrics specifically designed for outdoor use.

When you purchase an Ebel product, you get more than just great designs and high-quality craftsmanship. Since 2007, we've partnered with Trees for the Future, an organization committed to promoting agroforestry and providing renewable energy to impoverished areas. For every piece of furniture we produce, Trees for the Future plants one tree. Trees for the Future operates in degraded and deforested regions, tackling climate change and world hunger. Farmers are trained to sustainably revitalize their land. This provides sources of food they otherwise would not have access to. Through TREES Forest Garden Approach, farmers plant thousands of trees that provide protection and nutrition. Their gardens and soil are restored through nitrogen fixation.
