- Outdoor cushions have a 1-year warranty against manufacturing defects and loss of foam resiliency, under normal use
- Fabric has a 1 year warranty against wear under normal care and condition

## Care and Maintenance

**Teak:** Long-term, teak furniture develops a pleasing silvery gray patina, which is cosmetic and not an indication of dryness. Its natural oils help keep this hardwood strong and durable in a variety of environments, so there's very little maintenance. Because teak is very weather-resistant, it doesn't need to be stored during the winter or covered with protective tarps. However, covering teak furniture will protect the surface from elements such as hail, wind, and snow, which can cause cosmetic damage. To keep the original golden honey finish, apply a very thin layer of Linseed or Teak oil to your furniture 1-2 times a year, depending on exposure. Cleaning with teak cleaner is recommended every 2-3 years, along with the oil application.

**Cushions & Outdoor Fabric:** Regular cleaning with mild soap and water will help prevent the build-up of dirt, which can generate mildew. Simply spot-treat stains with mild soap and water, rinse, and allow the fabric to air dry. Cushions will dry much faster when removed from the frames and placed on their sides or edges. For more information, please visit the fabric manufacturer's website.

**Covers & Storage:** When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
