Care and Maintenance

Acacia Wood: Wipe down the wood with a soft cloth slightly moistened with warm water soapy water. Drying with a soft dry cloth or air drying is fine. Avoid using harsh cleaners, brushes, or power washers. Avoid placing your acacia wood furniture in direct sunlight. If using outside, keep your furniture under an umbrella or in a shaded area. Periodically apply wax or wood preservative immediately after cleaning.
Rope: Outdoor rope is all-weather and fade-resistant. To clean, simply wash it with a soft brush or sponge with mild soapy water. Rinse well and allow to completely air dry. Do not use solvents or abrasives, or chemical cleaning products that could damage the furniture. Do not pull hard on the material as it can be stretched out of shape.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
