About Ipe Wood

Ipe is a hardwood timber prized for its beauty and long-lasting durability in any environment. Ipe timber exhibits a deep chocolate-brown grain when new that may be allowed to naturally age to an elegant silver patina or brought back to an as new finish at any time. Jensen Outdoors Ipe furniture comes pre-stained with Penofin® Verde Oil Finish, which protects and conditions the wood to prevent absorption of moisture. Although Ipe is naturally stable, small checks in the surface (minuscule openings of the wood grain at the ends) may appear if the furniture is placed in a very dry or sunny environment. Superficial checking is a natural occurrence resulting from moisture loss and in no way affects the structural integrity and longevity of the furniture, and will in fact disappear when the environment becomes moist.

Warranty

Jensen Outdoor's warranty covers manufacturing defects; normal wear and tear is not included. With a little bit of care, your furniture will outlive the warranty for many years.

- Ipe Wood: Ipe frames are warranted to not break or crack for five (5) years of residential use.
- Hardware: Hardware used in the production or assembly of Jensen Outdoor furniture is warranted to not break for five (5) years of residential use.

Care and Maintenance

Ipe Wood: You can wash your Ipe wood surfaces with a soft towel and mild dish soap, then rinse clean with water. Once complete, allow to dry. Avoid using harsh cleaners, brushes or power washers, which could damage the finish. For color restoration and tough stain removal instructions, please see the attached Care & Maintenance Guide.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.

About the Manufacturer
