Short Description

36" Round Fire Bowl 732-A by American Fyre Designs

Description

Experience the pinnacle of outdoor luxury with the 36" Round Fire Bowl (732-A) by American Fyre Designs. Embodying a perfect blend of simple, contemporary design and unparalleled versatility, this fire bowl redefines the art of outdoor ambiance. With an array of styles and sizes to choose from, it seamlessly complements any outdoor space, effortlessly infusing it with allure. Elevated by a subtle riser at the base, this fire bowl is meticulously handcrafted from glass fiber reinforced concrete, available in a delightful variety of textures and colors. With the choice of Natural Gas or Propane as this fire bowl becomes the centerpiece of cozy gatherings, enveloping you in warmth and sophistication amidst the enchanting flames.

Includes

- One (1) 36" Round Fire Bowl 732-A
- One (1) Bag of 10 lbs. or 5 lbs. Base Layer Lava Granules LF-10 or LF-5
- Recommended: 50 lbs. of Glass Media to be used in addition to the Base Layer Lava Granules (Sold Separately)

Dimensions

- 36"W x 36"D x 16"H (154 lbs.)
- Star Burner Diameter: 16"

Features

- Handcrafted from innovative Glass Fiber Reinforced Concrete (GFRC) made in USA
- GFRC derives its strength from portion of alkali-resistant glass fiber and acrylic polymer blended into durable concrete to withstand the outdoor elements
- Stainless steel burner is durable and weather-resistant
- Adjustable flame height for comfortable dining
- Available in natural gas or liquid propane
- Gas will shut-off automatically if the thermocouple does not sense the presence of flame, ensuring increased safety.

About Manual Flame Sensing Control System

Match-lit, thermocouple equipped control with flame sensing recognition and manual flame height adjustment. The BTU rating with Manual Flame Sensing Control System is 65,000(NG) or 65,000(LP).

About FyreStarter Bluetooth Control

Introducing the new ON/OFF-High/Low electronic system for American Fyre Designs fire features, controlled conveniently through your smartphone. Simply download the app, and you're good to go. Firetables with FyreStarter Bluetooth Control require 110V AC power, while Firebowls and Fire Pits require 120AC power (include A and C USB ports). The BTU rating with FyreStarter Bluetooth Control is 100,000(NG) or 100,000(LP).

Warranty

American Fyre Designs' warranty covers manufacturing defects; normal wear and tear is not included. With a little bit of care, your furniture will outlive the warranty for many years.

- Finish and Accessories: Exterior (GFRC) fire features and accessories are warranted for 3 years in a residential setting
- Components: Values, burners, electrical components, and controls (excluding batteries) are warranted for 1 year in a residential setting

Care and Maintenance

Concrete Frame: Concrete is porous and absorbs oils, acids, and chemicals. Clean spills immediately by rinsing or washing gently by hand using clean water and a soft, nonabrasive cloth and allow to air dry. Avoid using harsh cleaners, oily or acidic substances, brushes, or power washers, which could damage the finish.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.

About the Manufacturer

Fire brings warmth, glow and serenity, encouraging us to relax and unwind.
