Short Description

Hambrick 4-Seat Loveseat Set FP-HMB-6LS-TK by Forever Patio

Description

Transform your outdoor space into a haven of timeless elegance with the Hambrick 4-Seat Loveseat Set (FP-HMB-6LS-TK) by Forever Patio. Crafted with artisanal precision, this collection showcases the art of craftsmanship in every inch of its 100% solid, plantation-grown teak hardwood. Immerse yourself in the natural beauty of teak, a wood that not only exudes warmth but also boasts inherent weather resistance. The smooth, sanded finish invites touch, and the option to oil the wood preserves its original richness or allows it to gracefully weather into a silvery gray patina over time. The hardware, meticulously chosen for durability and aesthetics, features zinc-coated steel plated in brass. This thoughtful selection minimizes corrosion, provides robust strength through steel, and adds a touch of luster with brass.

Care and Maintenance

Teak: Long-term, teak furniture develops a pleasing silvery gray patina, which is cosmetic and not an indication of dryness. Its natural oils help keep this hardwood strong and durable in a variety of environments, so there's very little maintenance. Because teak is very weather-resistant, it doesn't need to be stored during the winter or covered with protective tarps. However, covering teak furniture will protect the surface from elements such as hail, wind, and snow, which can cause cosmetic damage. To keep the original golden honey finish, apply a very thin layer of Linseed or Teak oil to your furniture 1-2 times a year, depending on exposure. Cleaning with teak cleaner is recommended every 2-3 years, along with the oil application.

Cushions & Outdoor Fabric: Regular cleaning with mild soap and water will help prevent the build-up of dirt, which can generate mildew. Simply spot-treat stains with mild soap and water, rinse, and allow the fabric to air dry. Cushions will dry much faster when removed from the frames and placed on their sides or edges. For more information, please visit the fabric manufacturer's website.

Covers & Storage: When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
