## Care and Maintenance

**Frame:** Simply hose off or wipe down your frame to clean it! Avoid using harsh cleaners, brushes, or power washers, which could damage the finish. Take extra care when placing your furniture in humid or coastal settings; accumulation of salts and other debris can cause damage to your frame.

**Sling:** In order to protect from getting stains and keep its appearance, wipe down with a damp cloth using a soap and water mixture every few weeks. To remove any mold, rinse the furniture with water and gently scrub with a brush.

**Cushions & Outdoor Fabric:** Regular cleaning with mild soap and water will help prevent the build-up of dirt, which can generate mildew. Simply spot-treat stains with mild soap and water, rinse, and allow the fabric to air dry. Cushions will dry much faster when removed from the frames and placed on their sides or edges. For more information, please visit the fabric manufacturer's website.

**Covers & Storage:** When not in use, we recommend using a protective cover with your furniture. During harsh weather and extreme temperatures, we recommend storing the cushions in a shed or garage and covering the frames with protective covers. If you store the frames indoors during the winter, avoid storing them upside down, which can trap moisture.
