Care and Maintenance

Like your umbrella, your base will last longer when cared for properly. Simply hose off to clean and make sure all fittings are secure before opening your canopy. If you experience storms or high winds often, we recommend storing your base away from the elements to prevent damages to the finish. If you plan on using your umbrella near salt water or an indoor pool, wipe the frame and base down regularly to prevent paint blistering. When adjusting your umbrella, keep others at a distance to prevent accidental injuries or material damage.
