Short Description

The Circa Backless Bench (SO-2006-183) by Source Outdoor is a refreshing departure from rectangular outdoor seating, allowing you to arrange your furniture around fire pits and circular tables with ease.

Description

The Circa 3-Seater Backless Bench (SO-2006-183) by Source Outdoor is a refreshing departure from rectangular outdoor seating, allowing you to arrange your furniture around fire pits and circular tables with ease. It features a great modern design with its simple shape and flat woven wicker. The wicker is a UV treated resin designed to withstand sunlight without chipping, peeling or fading. With its commercial grade construction, this bench is excellent for homes and businesses that want durable patio furniture. The cushions are covered in an off-white, outdoor grade polyester. The cushions are also available in a wide selection of Sunbrella® fabrics, letting you customize this bench to your patio decor.

Includes

- One (1) Circa 3-Seater Backless Bench Frame
- Seat Cushion

Dimensions

- Bench: 68"W x 25"D x 16"H
- Seat Height: 16"

Features

- Made by Source Outdoor
- DuraWeave HDPE commercial grade resin
- Espresso finished weave
- Powder-coated aluminum frame
- Sunbrella fabric cushions
- No assembly required
- Three Years Warranty

Commercial Grade Construction Dura-Weave resin wicker (made of HDPE) is resistant to weather factors that would normally take its toll on natural wicker. Laboratory tested to withstand more than 3000 hours of direct UV light exposure with no visible changes. Extra-thick aluminum frames are designed to commercial specifications from hotels and resorts to the cautiously optimistic homeowner. The aluminum frames are fully welded and powder coated with a 10 step process to help with the fight against rust and corrosion from exposure to the elements. Furniture arrives fully assembled - just throw the cushions on and enjoy!

Care and Maintenance Tips This product requires minimal regular care. For every month of exposure, take a warm rag with warm water and wipe down the wicker. Cushions have zippered covers that can be washed. If

you plan to go several months without use, or wish to maximize the lifetime of your product, then you will want to invest in some patio furniture covers. Although this product is extremely weather resistant, adding furniture covers will always extend its lifetime compared to not covering it.
