Care and Maintenance

Cushions & Outdoor Fabric: Cleaning your cushions on a regular basis will help prevent the build-up of dirt, which can generate mildew. Dirt and dust can be brushed off, and stains can be spot cleaned with mild soap and water, rinse, and allow the fabric to air dry. Cushion covers zip off and can be machine washed and air dried, do not put in the dryer. For tougher stains, visit the fabric manufacturer's website for additional recommendations. Tip: If your cushions are left out during a rainstorm, unzip and place the cushion on its side, zipper side down. This will allow the water to drain out quickly

Covers & Storage: To prolong the life of your furniture, we recommend using a protective cover. In areas with harsh winter climates, store the cushions inside of a garage or shed, and cover the frames to prevent damage.
