- Wrought aluminum frame
- Frame available in Ancient Earth
- Resin wicker seat and back
- Wicker available in Black Walnut
- No assembly required

**Wrought Aluminum Construction** This piece features heavy, 0.65 mm thick tubing, strengthened at every stress points with galvanized steel inserts. The surface is triple hand-polished, with 360 degree welds and a high-solids polyester and powder-coated finish. The heavy gauge is rust resistant while the finish if fade resistant for a high durable, weather-resistant outdoor piece.

**NT-1 Pre-Wash** Each metal frame is pre-finished with a nano-ceramic pre-wash. This crucial step pits the metal surface to increase the surface area for the powder-coating up to ten times larger. This results in a finish that lasts far longer than any traditional powder-coating process.

**N-Dura Resin Wicker** This piece was crated with the most realistic and extensive UV resistant resin wicker in the industry. This wicker is guaranteed to not experience any significant color change for 5 years. The resin is designed to have a realistic tone, with variations in color and texture to make each piece unique. It is available in resin, vinyl, or polyester and is hand-woven over a steel-reinforced heavy-gauge aluminum extrusion frame with triple antique hand-applied finish, using nano-ceramic technology.

**Resysta Resin** This environmentally-friendly resin product is composed of rice husks, salt, and mineral oil. It requires minimum care and is designed to be weather resistant, even against the sun, rain, snow, heat, humidity or salt water.

**Sunbrella Fabric** This piece offers exclusively designed an colored fabrics to cover your new cushions with. These fabrics include the industry's favorite, Sunbrella, solution-dyed acrylics, which is designed to be weather and fade resistant. Choose from a large selection as shown in the clickable swatch below.

**Care & Maintenance** Zippers are included for cosmetic purposes and added drainage only. Do no remove the

foam cores due to the tight fit and difficulty with repositioning them when inserted. Fabrics are to be spot-cleaned only and are not suited to machine washing/dry cleaning and machine drying.

Summer Classic Exclusive Fabrics

Clean with water-based cleaning agents or water-based foam to remove overall soil. Many household cleaning agents are harmful to color and life of a fabric. For regular cleaning, frequently vacuum or lightly brush to remove dust and grime.

Sunbrella Fabrics

Spot wash with a solution of natural soap and lukewarm water. For stubborn stains, fabric spot remover or a bleach/water mixture may be used. Protect the area around your fabric when using a bleach solution as bleach may discolor non-sunbrella fabrics. Always rinse sunbrella thoroughly to completely remove bleach. Do not machine wash sunbrella rain fabrics.

Bella-Dura

Bleach can be used. However, spot cleaning with a water-based or solvent cleaner is all that is required for most spills. Apply cleaning solution and blot with a clean, dry cloth. Detergents will damage the water resistant qualities of the fabric.

Outdura

For regular cleaning, brush off any loose dirt and rinse with lukewarm water to prevent excessive dirt from accumulating. To clean, use a solution of lukewarm water (not exceeding 100 degrees F) and a mild natural soap such as ivory TM. Rinse thoroughly to remove excess soap. For light cleaning, avoid the use of detergents. For stubborn stains, use a mixture of bleach and water.
