Features

- Made by Summer Classics
- Marine Grade Teak Frame
- Frame available in Natural Teak or Weathered Teak
- No assembly required

Marine Grade Teak This piece features the most premium teak in the world and was found to design wooden furniture pieces. This teak is the only kind rated high enough for marine use. Teak collections feature burmese high quality teak frame with tenon and mortise construction.

NT-1 Pre-Wash Each metal frame is pre-finished with a nano-ceramic pre-wash. This crucial step pits the metal surface to increase the surface area for the powder-coating up to ten times larger. This results in a finish that lasts far longer than any traditional powder-coating process.

Sunbrella Fabric This piece offers exclusively designed an colored fabrics to cover your new cushions with. These fabrics include the industry's favorite, Sunbrella, solution-dyed acrylics, which is designed to be weather and fade resistant. Choose from a large selection as shown in the clickable swatch below.

Care & Maintenance Zippers are included for cosmetic purposes and added drainage only. Do no remove the foam cores due to the tight fit and difficulty with repositioning them when inserted. Fabrics are to be spot-cleaned only and are not suited to machine washing/dry cleaning and machine drying.

Summer Classic Exclusive Fabrics

Clean with water-based cleaning agents or water-based foam to remove overall soil. Many household cleaning agents are harmful to color and life of a fabric. For regular cleaning, frequently vacuum or lightly brush to remove dust and grime.

Sunbrella Fabrics

Spot wash with a solution of natural soap and lukewarm water. For stubborn stains, fabric spot remover or a bleach/water mixture may be used. Protect the area around your fabric when using a bleach solution as bleach may discolor non-sunbrella fabrics. Always rinse sunbrella thoroughly to completely remove bleach.

Do not machine wash sunbrella rain fabrics.

Bella-Dura

Bleach can be used. However, spot cleaning with a water-based or solvent cleaner is all that is required for most spills. Apply cleaning solution and blot with a clean, dry cloth. Detergents will damage the water resistant qualities of the fabric.

Outdora

For regular cleaning, brush off any loose dirt and rinse with lukewarm water to prevent excessive dirt from accumulating. To clean, use a solution of lukewarm water (not exceeding 100 degrees F) and a mild natural soap such as ivory TM. Rinse thoroughly to remove excess soap. For light cleaning, avoid the use of detergents. For stubborn stains, use a mixture of bleach and water.

Available Finishes

- Natural Teak: 25474
- Weathered Teak: 254715
