Description

The Hampton Daybed (SO-2007-233) by Source Outdoor features a gorgeous commercial grade High-Density Polyethylene wicker that is UV resistant and complimented by a heavy coated aluminum frame that makes this daybed comfortable and stylish. This daybed offers a sturdy frame that can withstand heavy traffic and weather conditions to last for years to come. The clean and bright appearance of the aluminum will make this daybed fit right in with your outdoor furniture and give you and your guest a cozy place to relax in the sun. The cushions are made of commercial quality outdoor foam creating a feeling that makes you feel like you're resting on clouds.
