Short Description

The Stalwart Powder Coated Steel Fire Table (C1038) by CC Products features a white finish with metal accents perfect for giving a rustic patio that modern touch.

Description

The Stalwart Powder Coated Steel Fire Table (C1038) by CC Products features a white finish with metal accents perfect for giving a rustic patio that modern touch. The large square top provides a functional surface for placing down drinks and snacks as you sit back and enjoy your outdoor space. Thanks to the thick gauge steel construction and powder coat finish, this outdoor fire table is made to last. Any expensive media such as fire glass and lava rock can be easily protected from theft thanks to the locking media lid. The lid also helps create more table surface when you need it. Adjustable leveling feet keep the table steady on un-even surfaces

Disclaimer: At 180 lbs, the Stalwart Powder Coated Steel Fire Table will require the assistance of at least 2 and possibly more people to install. Please be sure you have the appropriate people on site at the time of delivery to move the firepit as we only ship these with LTL carriers who will drop off the firepit at the curb to your home. *Southern California customers we may be able to assist with home delivery but please confirm before ordering.**
