Care and Maintenance

To keep your Luna in top quality condition, we recommend storing it away from direct sunlight and moisture. If the device does get lightly damp, allow it to air dry for at least 24 hours before reuse. Overcharging may cause serious damage to the battery, so we suggest leaving it plugged in for no longer than it takes to fully charge (about 2-4 hours). If you're going to store your Luna for a while, plan to charge it ahead of time.
