Short Description

Sunglo Black LP Outdoor Heater A270BK

Description

The Sunglo Black LP Outdoor Heater(A270BK) By AEI Corporation. The Sunglo™ model A270 portable propane heater is ideal for open patio designs. The model offers the flexibility to move or remove the heaters as needed. Optional tie down kit is available to secure heaters to patio deck where required. When used with a standard 20 lb propane cylinder, the heater can be operated continuously for approximately 10 hours. Model A270 utilizes a manually operated control system requiring no electrical power. The battery operated DSI pilot ignition makes lighting the pilot easy and convenient. This heater offers a large aluminum reflector for maximum comfort, a primary aerated burner for minimal noise, and 100% safety shutoff. Sunglo™ A270 is truly the original outdoor patio heater.

Patio Heating for All Occassions

Don't let the sun going down or an unexpected weather change negatively affect your outdoor dining area or special event. Sunglo™ outdoor heaters utilize radiant heat to warm people and objects without having to

heat the surrounding air. Radiant heat quietly provides outdoor warmth by utilizing a deep dish reflector on the patio heater, to send heat over a large area so all can enjoy it. Sunglo's patio heaters are specially designed to stay lit even in a light breeze. Heat coverage varies depending on the wind exposure on patio. The average spacing between these heaters is 12 ft. apart.

About the Manufacturer

Founded in 1966, AEI has operated under a consistent premise: provide the finest in innovative outdoor cooking and patio heating products to discriminating consumers and commercial customers. AEI is also the only single source of quartz electric, horizontal gas, umbrella domed, Natural and Propane Gas heaters. Their mission has always been simple: supply the perfect heating equipment to enhance any patio then back it up with industry leading warranties and support
